# Career Fair 2008

## Welcome

To All Participants of the 2008 Society of Women Engineers and Tau Beta Pi Career Fair:

We would like to extend a sincere welcome to all the corporate representatives and students participating in the Twenty-Fourth Annual Career Fair. We are excited about the prospect of bringing companies across the nation together with some of the top engineering students in the country.

The Society of Women Engineers (SWE) and Tau Beta Pi (TBP), the National Engineering Honor Society, are pleased to bring you this year's Career Fair. SWE and TBP are sponsors of several events throughout the year. These events provide students with the opportunity to interact with industry representatives through presentations at meetings, banquets, Corporate Information Sessions, corporate luncheons, Professional Development Day, as well as several other college-wide events.

We hope that both students and companies will become more aware of the opportunities, in addition to recruiting, that are available at the College of Engineering. Thank you for participating in this year's Career Fair. Good luck!

Sincerely,

Nidhi Shah

## Message from Corporate Sponsor, Shell

### Shell Oil Company

Personal growth and development. Flexible work conditions. International teams. At Shell, you'll get the challenge and support you need to launch a successful career.

Shell is a global group of energy and petrochemical companies employing more than 104,000 people and operating in more than 110 countries and territories. Our aim is to meet the energy needs of society in ways that are economically, socially and environmentally viable, now and in the future.

One of America's leading oil and natural gas producers, Shell is a pioneer in oil and gas exploration and production technology. Shell explores for, produces and trades in a range of energy resources, including oil and natural gas. We also create essential products from those resources, such as fuels and petrochemicals. We have a broad portfolio of hydrogen, biofuels, wind and solar power interests. Shell also provides consultancy and technical services as well as research and development expertise to the energy industry.

We employ a diverse mix of men and women of 100 different nationalities and ethnic groups, orientations, backgrounds, abilities and cultures. We value this diversity and encourage the most talented graduates and undergraduates worldwide to apply.

To be considered for scholarships, internships, full time positions, and more, please apply to [www.shell.com/us/careers](http://www.shell.com/us/careers).
