

**ChE 344**  
Week 11  
Problem Set 17  
Due Thursday, March 21, 2013 (Lecture 18)

**Individual Assignment**

1. PLQ 18 - What is the new term added to the algorithm for multiple reactions with heat effects?
2. P12-4<sub>A</sub> (b) ICM Heat Effects II  
Only do the first 3 reactors as reactors 4 through 7 do not work.  
Email performance numbers to [morabitm@umich.edu](mailto:morabitm@umich.edu) with the subject line "Heat Effects II"
3. Pick up your individualized comprehensive exam after class from one of the GSIs. Each exam is different with a number next to your name. The exam is due March 29<sup>th</sup> at 9:30 AM.
