Your Home Workspace is your launch pad for eResearch Proposal Management. It allows you to:

- View information about your Proposal Approval Forms (PAFs), track where a PAF/proposal/project is in the process, and see items that need action in your Inbox.
- Access projects in order to view documents related to a project.
  - The system not only accomplishes the routing and approval tasks, it also provides document storage and access for those project team members and unit administrators who have some relationship to the project.
