Module 1: Core Committee Staff Basics

Guide Introduction

This guide provides procedures that Core Committee Staff members will use to manage submissions for human subject research in eResearch.

This document is divided into several modules that will help you manage submissions for human subject research in eResearch.

Module 1 Objective:
Covers basic information that Core Committee Staff need to understand before working in eResearch to manage human subject research submissions.

Refer to the table of contents below for the topics covered in Module 1.

Table of Contents

Module 1: Core Committee Staff Basics .................................................................................................................................................................................. 1
Approval and Expiration Dates .................................................................................................................................................................................. 2
Automatic Notifications ......................................................................................................................................................................................... 2
Logging into eResearch ....................................................................................................................................................................................... 3
Using the eResearch Home Workspace .......................................................................................................................................................... 5
Adding New User ........................................................................................................................................................................................................... 6
Approval and Expiration Dates

<td>Submit Reviewer Checklist</td>
<td>Date reviewer submits review with a review determination of Exempt</td>
<td>No Expiration Date Set</td>
</tr>
<tr>
<td>Administrative or Expedited - Not Regulated</td>
<td>Submit Reviewer Checklist</td>
<td>Date reviewer submits review with a review determination of Not Regulated</td>
<td>No Expiration Date Set</td>
</tr>
<tr>
<td></td>
<td>Edit Approval Period</td>
<td>Specific Date entered by Core Staff</td>
<td>Specific Date entered by Core Staff</td>
</tr>
</tbody>
</table>

Automatic Notifications

eResearch automatically notifies Study Teams of:

- Upcoming expiration at 90, 60, and 30 days prior to expiration.
- When the study expires.
eResearch is accessed at http://eresearch.umich.edu.

Important Information

- For more information on how to obtain a uniqname and a UMICH Kerberos password, go to: www.itd.umich.edu/help/faq/uniqnames.
- eResearch supports the following system configurations:
  - Windows 2000 or Windows XP and Internet Explorer 6.0
  - Macintosh OSX and the Safari
- For optimal viewing, the recommended screen resolution size is 1024 x 768 or higher.

eResearch Home Page

1. Go to http://eresearch.umich.edu/.
2. Click .
3. Enter your Login ID and your Password.
4. Click Log In.
5. eResearch opens and displays your **Home Workspace**.
eResearch Home Workspace

1. Verify that [Core Committee Staff] is displayed on the home workspace.
   
   **Note:** If Core Committee Staff is not displayed, click the [Core Committee Staff] link under My Roles.

2. Your Home Workspace displays all the eResearch submissions associated with you, organized by status (Inbox, Unassigned, In Progress, Completed, and All Reviews).

   - Submissions can be accessed by clicking the appropriate tab for each category.
   - Submissions that require action appear under [Inbox].

   **Note:** New submissions will not appear in the Inbox unless you are assigned as the owner and you are required to take some action.

3. Individuals with multiple roles in eResearch, such as Core Committee Staff and Study Team Member, can select the appropriate role under My Roles.

4. Click [My Home] from any page in eResearch to return to your Home Workspace.

5. Click [Logoff] to exit eResearch.
Adding New User

Tip: The easiest way to add a new user is to have the person requesting access log into eResearch.

- If you need to add a new user, you will need the user’s uniqname, first and last name, and email address.

eResearch Home Workspace

1. Select the **Study Team Member** role.

   Note: The easiest way is for the person requesting access to log into eResearch.

   If you need to add a new user, you will need the user’s uniqname, first and last name, and email address.

   eResearch Home Workspace

2. Click **User**.

New User Request

3. If the new user is affiliated with UM, select the **Uniqname** radio button. If not, skip to step 9.

4. Type the user’s uniqname in the **Uniqname** field.

   Note: You can also search by the user’s last name by selecting the **Last Name** radio button and typing his/her last name in the field.

5. Click **Search**.

6. Click the new user’s uniqname in the **Uniqname** field.

7. Confirm the information listed is correct for the new user.

8. Click **Save** and you are finished.
New User Request

9. If the user is not affiliated with UM, turn on the **Not Currently Associated with UM** check box.

10. Enter the new user’s contact information.

11. Click **Save**.
