

THE LOS ANGELES COUNTY MUSEUM OF ART VII:
PALA AND NEPALI MANUSCRIPT PAINTING
ACSAA Color Slide Project
Walter M. Spink Director

This set continues our project of documenting important art objects from South and Southeast Asia in American Museum Collections. The Los Angeles County Museum of Art has one of the best collections of early Pala and Nepali manuscript paintings in the entire world. This set presents a comprehensive overview of most of the early material in this outstanding collection of early South Asian manuscripts. Dr. Pratapaditya Pal is currently planning to publish the East Indian Manuscript portion of the collection in catalogue form. All dates are according to his attribution. The Nepal # designation refers to the Nepalese paintings listings in the Los Angeles County Museum of Art collection catalogue Art of Nepal by Dr. Pratapaditya Pal, 1985 edition. Photographs of the Prajna Paramita manuscript M.86.185 a-d #'s 1,2,4,5,6,7,8,10 and 11 are by Dr. Stephen Markel, Assistant Curator, Indian Department of the Los Angeles County Museum of Art. All other photographs are by John Listopad, Department of the History of Art, The University of Michigan.
