

LOS ANGELES COUNTY MUSEUM OF ART VII:
SOUTHEAST ASIAN SCULPTURE

ACSAA Color Slide Project
Walter M. Spink Director

This set continues our project of documenting important art objects from South and Southeast Asia in American Museum Collections. The Los Angeles County Museum of Art has one of the best collections of South and Southeast Asian Art in the United States of America. A number of the most important sculptures in this collection are included in this set. A second set is planned that will include several more significant pieces and the Los Angeles County Museum of Art's unique collection of Sri Lankan sculpture and decorative arts. Dr. Pratapradya Pal is currently planning to publish this portion of the collection in catalogue form. All dates are according to archive records of the Los Angeles County Museum of Art. All photographs are by John Listopad.
