

Typing Diacritics (accents) in German -Macintosh

Typing in international characters is the same for all Macintosh applications, including the operating system.

Mac	Follow these steps
ä, ö, ü	<ol style="list-style-type: none"><li data-bbox="542 499 1159 531">1. Hold down the <i>Option</i> key, and type a <i>u</i> (the letter <i>u</i>).<li data-bbox="542 556 1149 588">2. Let go of the keys (don't hold them down for step 3).<li data-bbox="542 613 1214 644">3. Type the vowel over which you want the umlaut to appear.
Ä, Ö, Ü	Hold the <i>Shift</i> key down in step 3 Above.
ß	Hold down the <i>option</i> key, and type an <i>s</i> (the letter <i>s</i>).
