Date: June 6, 2006

Subject: Report on Salary and Wage Payments for Research Faculty

Enclosed is the report on salary payments for research faculty. This report is a three-year comparison of payment information for academic years 2002-03 through 2004-05. Because of the small populations for most of the units, the report on payment information by gender was not produced. The year-to-year comparison report was modified to include additional calculations that would have been provided on the report by gender.

An explanation of the methodology for this report is also enclosed.
