I have been the Treasurer of this club since May 2007. These past 6 months I have created a cohesive and transparent system of documentation that reliably represents the Club's financial matters. My aim for this upcoming year is to solidly establish this new structure and to make further changes where necessary. I would love to continue this work for one more year to ensure that the Club's future Treasurers have a consistent format, and therefore, an easily maintainable financial system.
