Issues Education and Awareness Programs
Project SERVE seeks to make UM a more involved, informed and educated campus through providing events, activities, and resources designed to raise awareness about issues that face our communities. These resources include books, articles, movies, speakers, and many other.
Project SERVE is a student-run program at the University of Michigan that works to provide students with opportunities to address serious social issues through community service and social action.

SERVE strives to heighten campus awareness of social issues, increase student involvement in the community, address community problems, and raise social consciousness.
