Dr. CharlesSchuster Receives Award

Quit Smoking Today!

Online Smoking Cessation

Roundtable:

Neurotoxicity

Dr. Sean Esteban McCabe Becomes Manchester Roundtable:

Cessation

Dr. Charles Schuster Receives Award

Methodology Discussion Series

The presenters should begin with a 15-minute informal presentation that introduces the following:

1. A description of the scientific problem and data set.
2. The scientific, substantive question that motivates the methodological question.
3. Methodological/statistical question.
4. Descriptive statistics.

Following the initial 15-minute presentation, the participants and presenter will brainstorm for approximately 45 minutes on the presented ideas. The goal is to provide a supportive and exciting setting within which researchers can brainstorm about methodological problems.

INSTRUCTIONS FOR THE PRESENTER:

The presenters should begin with a 15-minute informal presentation that introduces the following:

1. A description of the scientific problem and data set.
2. The scientific, substantive question that motivates the methodological question.
3. Methodological/statistical question.
4. Descriptive statistics.

Following the initial 15-minute presentation, the participant and presenter will brainstorm for approximately 45 minutes on the presented ideas. The goal is to provide a supportive and exciting setting within which researchers can brainstorm about methodological problems.

<yuxie@umich.edu>
Dr. William McAllister’s New Position

Dr. W. William McAllister from the University of Virginia, Department of History, has accepted a new position as a Research Historian with the U.S. State Department in Washington, D.C. This new position will allow him to develop his expertise in the historical and sociological aspects of foreign policy, with a particular focus on the history of U.S. foreign policy in the Middle East.

Help Us Congratulate Dr. James Cranford

Dr. James Cranford, postdoctoral fellow at the Substance Abuse Research Center, received a 7-year $1.5 million grant from the National Institute on Alcohol Abuse and Alcoholism (NIAAA) to study the role of hormone manipulation in alcohol and drug use among individuals with a history of substance abuse.

Dr. Robert Zucker Receives MERIT Award

Dr. Robert Zucker, who received the MERIT Award in 2001 for his work on the role of hormone manipulation in alcohol and drug use, has been awarded a new grant from the National Institute on Alcohol Abuse and Alcoholism (NIAAA) to study the role of hormone manipulation in alcohol and drug use among individuals with a history of substance abuse.

Dr. Charles Schuster Receives Award

Dr. Charles Schuster, who received the Charles Schuster Research Fellowship for his work on the role of hormone manipulation in alcohol and drug use, has been awarded a new grant from the National Institute on Alcohol Abuse and Alcoholism (NIAAA) to study the role of hormone manipulation in alcohol and drug use among individuals with a history of substance abuse.

Quit Smoking Today!

Online Smoking Cessation

The Substance Abuse Research Center is sponsoring a smoking cessation program for individuals interested in quitting smoking. The program is available online and includes personalized advice and feedback.
